APPLICATION AND USE

Method
If directed to use this solvent for wipe down of a specific surface, use the 2-cloth method, one to apply the thinner and one to remove to avoid re-applying residues.

Hints
Ventilation and Humidity Control
Ensure adequate ventilation during use.

Some Important Points
No special restrictions.

Compatibility/Substrates
Compatible with all International antifoulings.

TRANSPORTATION, STORAGE AND SAFETY INFORMATION

Storage
TRANSPORTATION:
Antifouling Thinner No.3 should be kept in securely closed containers during transport and storage.

STORAGE:
Exposure to air and extremes of temperature should be avoided. For the full shelf life of Antifouling Thinner No.3 to be realised ensure that between use the container is firmly closed and the temperature is between 5°C/41°F and 35°C/95°F. Keep out of direct sunlight.

Safety
DISPOSAL: Do not discard tins or pour paint into water courses, use the facilities provided. It is best to allow paints to harden before disposal.

GENERAL: Read the label safety section for Health and Safety Information, also available from our Technical Help Line. Always use gloves and goggles and keep skin protected with overalls. Users should ensure they have a copy of the Material Safety Datasheet for this product and that they are familiar with all the safety directions before use.

IMPORTANT NOTES
The technical information and suggestions for use and application presented herein are not intended to be exhaustive, but they represent the best information available to use and are believed to be reliable. They should not, however, be construed as controlling suggestions and there is no warranty of performance of our materials either expressed or implied. We urge that users of our materials conduct confirmatory tests to determine final suitability for their specific end uses. Because this datasheet is subject to changes from time to time, it is the user's responsibility to check that this sheet is current prior to using the product.
